A mix of trends and one-of-a-kind designs that make a stylish statement in your home

- **BOLD AND BEAUTIFUL** Porcelain tile patterns make this kitchen come alive with movement. “Geometric optics in neutral colors work with any decor and are a great way to add character,” says Kira Krümm, the principal interior designer of Koastal Design Group Kira Krümm & Co. This particular tile, used in a project her team worked on, is a blend of Fousanna gray with wood texture, nickel and platinum. “The accent tile is a nice contrast to the clean white cabinets, and it complements the surrounding hues in the warm gray quartz countertops, oak wood flooring, and wood and metal pendants,” Krümm adds. The Bennelong Point Cube tile is available through Design Works, Naples. From \$40.20 per sheet.
- **STANDOUT SHELIVING** The Fusion Etagerie by **Jonathan Charles Fine Furniture** looks antiequey with its satin gold brass shelving and ebonized oak accents. Keep the trinkets to a minimum to let the sleek design shine. The rest can go behind the marble doors of the lower cabinet, \$9,584 (MSRP); Baer’s in Naples and Fort Myers
- **SHOW OFF** These kitchen tools are too comely to conceal. The Barman Tool Set is gorgeous with its natural marble and stainless steel look. Place it near your wine collection to help enhance a bright, open kitchen, \$168; Summerfields in Naples.
- **ROLL OUT** Take the party from the living room to the patio with the Poplar Beach Bar Cart, which glides easy with its bottom wheels and light, metal caster frame. It’s part of Hooker Furniture’s Novella Collection, which features organic elements like stone and bamboo, with light finishes in a transitional style. \$3,627; Matter Brothers in Naples and Fort Myers.
