KOASTAL DESIGN GROUP

Koastal Design Group made their clients' dreams a reality with this stunning master suite renovation.

The master bath was extended and completely redesigned to create this spacious area fit for a spa. The shiplap clad ceiling tray defines the enormous glass walk-in shower that is flanked by large windows and has a porcelain feature wall and freestanding tub. Gorgeous his-and-her custom-designed vanities and a built-in linen cabinet in contrasting finish coordinate with the custom millwork paneling encasing the vanity mirrors, adorned with decorative sconces. In a white and seaglass palette, the bedroom is a sanctuary, warmed by the beautiful flooring from Real Wood Floors. The nightstands feature jewel-like agate pulls, while the paneled wall and ceiling feature carry the coastal theme from the adjoining master bath.

This dream makeover is a perfect example of Koastal Design Group's signature, "livable luxury," where comfort and beauty beckon you to rest.
