Koastal Design Group transformed this Moorings home for a couple relocating from the west coast. "Understanding the lifestyle of Southwest Florida and how that translates into a home's interior is how we have built our success," states Owner and Principal Interior Designer Kira Krümm. Her clients were seeking the stylish but more relaxed vibe that Naples offers.

The interior was redesigned with timeless light neutrals and enhanced with beautiful unique finishes. This approach to design has defined Krümm's work. For more than two decades, she has set out to define this sought-after Naples style. Creating well-balanced "quiet" backgrounds allow the furniture, art, and appointments to have a voice without making too much noise. The goal is to achieve a harmonious interior with character and visual interest that represents the owners," Krümm describes.

Koastal Design Group is a group of dedicated, talented professionals who are recognized for their ability to produce high-level, fast-track design and renovation, and only partner with the top contractors in town. Synergy and communication are the keys to successful collaboration. "We work with only the best contractors that have the same level of excellence and dedication to timely finished projects. Teamwork makes the dream work," delights Krümm.

From concept to completion, this team implemented a vision and kept the renovation moving until the home was transformed into the haven their clients had always wished for. This beautiful renovation is another perfect example of Koastal Design Group's signature "livable luxury." ■
